Milledgeville Ga.

Aug 20th 1927

Dear Mr Collier

Your very interesting letter was received before I left my home in Savannah but I did not know the time or date of my departure to come. I am at my country place on my way to Ga- on a motor trip to look up some genealogical data- I am very interested in picking the dance lines

you once & have a good deal of information about the Collins. I feel sure we can assist each other & I shall be very glad to do anything to help. I have a long line of Innis Collins but my papers are not by me & as I shall see my Aunt tomorrow morning early I could give you much help now. The only point I am looking up

I fancy you would come for it
find helps along there. I have a
good bit of the data you seek me
I get mine from England also
the tickets between one over come
now. What with the anecdotes of
wars our pioneer ancestors
did tell to preserve their lives
& could handily guard from
fire & other casualties, there
records. When the elder folks
pass on without divulging their
knowledge to the younger genera-
tions (who are usually not interested)
our means of obtaining facts is
slim. Still if one looks on it
wonderful what we know with ah
twice & what makes it worthwhile
to find such worthwhile people
as we correspond here & there. As soon
after my return as possible I shall let
you hear from my researches. F. C. Comer.
